EDUCATION

Baba Ghulam Shah Badshah University, Rajouri, J&K
- Bachelor of Technology in Computer Science and Engineering, 2020-2024
- Current CGPA: 3.8

New Dream Land Educational Institute, Ganderbal, J&K
- Higher Secondary (10+2)
- Year of Completion: 2019
- Percentage: 69%

New Dream Land Educational Institute, Ganderbal, J&K
- Higher Secondary (10th Grade)
- Year of Completion: 2017
- Percentage: 85%

Profile

Versatile and dedicated fresher with a strong foundation in computer science and a passion for technology. Seeking a challenging role to leverage my skills in Python development, web development, cloud computing, and networking. Proficient in both front-end and back-end technologies, with the ability to adapt to new challenges. Eager to contribute to the success of a dynamic organization by applying my diverse skill set.

PROJECTS

Blog Website – HTML, CSS, Bootstrap, SQLite, Django
- Django based real time blog application is a web application for sharing and viewing of posts .
- The backend of the application uses python to handle server-side logic and interact with the database.
- The frontend of the application uses Bootstrap to create a user interface that allows users to interact with the application.

Mess Management System – HTML, CSS, JS, Bootstrap, SQLite, Django,AWS
- A mess management system is a web-application that helps to manage and automate the mess operations in an organization or institution.
- The purpose of this application is to automatize the hostel mess functionality and provide both the user and the admin a smart platform to interact with each other.
- The frontend of the application uses HTML, CSS, JS and Bootstrap to create a user interface that allows both the students and Mess Staff interact with the functionalities of Mess

Skills and Technologies

- **Python Development:** Strong development experience using Python and proficient in debugging with PyCharm and VSCode. Proven track record in developing APIs using Flask, Django, Tornado, and FASTAPI frameworks.
